**£550**

## Good to know

**LiverMultiScan** is a quick 15-minute, contrast-free MRI scan which provides measures that quantify liver tissue health. LiverMultiScan consists of three measures that have been shown to correlate with the amount of fat, iron and fibro-inflammation in the liver. LiverMultiScan reports include detailed cross-sectional maps of your liver that correspond to each measure.

## How do I book a LiverMultiScan scan with Vista Health?

Speak directly to one of our dedicated patient care team directly on **03300 572317** Monday to Friday 8am-8pm, weekends 8am-1pm.
