

Private Open MRI Summary Sheet

Vista Health offer Open MRI scans with reports returned from specialist Radiologists within 3 working days.

Open and Open Upright MRI are alternatives to a conventional “tunnel” MRI scanner and provides optimal image quality with high comfort, combining the best of both worlds.

Why Vista Health?

- Prices from only **£500**.
- Quick access with same day and next day appointments.
- You can refer yourself so no need for a GP referral to book a scan.
- Available at Croydon, Fitzrovia, Birmingham and Leeds.
- All scans carried out by highly-qualified, experienced Radiographers.
- Your digital scan images available online and a full written report within 3 working days.
- Friendly and professional patient care team

Prices from only £500*

Croydon (Completely Open unit)	£500
London (Upright MRI)	£800
Birmingham/Leeds (upright MRI)	£525

* Prices include a full written report

Good to know

Open MRI offers superior imaging in that it can detect issues that are only visible when the patient is in a weight bearing situation, or in their position of pain.

There are two types of Open MRI available: A scanner with three sides completely open allowing more space around the body; and Upright (or standing) MRI scanners that allow you to sit or stand between two large magnetised plates and you can look out.

Advantages

- *Patients can be imaged in a lying down, or standing position.*
- *A less claustrophobic environment for anxious patients.*
- *A higher level of patient comfort.*
- *More relaxing and comfortable.*

How do I book an Open MRI appointment?

Speak directly to one of our dedicated patient care team directly on **03300 572317** Monday to Friday 8am-8pm, weekends 9am-1pm.
